SUMMARY

Final-year Software Engineering student and Nitori International Scholar (CGPA 3.48, expected graduation: November 2027) with hands-on experience in cross-platform mobile development (Flutter, Firebase, SQLite) and web development (HTML, CSS, JavaScript). Recently designed, built and deployed a live, mobile-first website as a freelance web developer for an F&B client, and developed an ASR-based pronunciation training app featuring native speech-to-text and real-time feedback. Dean's Award recipient (Semesters 1–3) with strong fundamentals in OOP, RESTful API design and accessible, sensory-friendly UI/UX. Seeking a software engineering internship commencing March 2027.

EDUCATION

Bachelor of Software Engineering with Honours - UniKL (MIIT) **|** March 2024 – Present **|** CGPA: 3.48

- Nitori International Scholarship

Sijil Tinggi Persekolahan Malaysia (STPM) - SMK Pasir Gudang 2 **|** 2020 **|** CGPA: 2.42

SKILLS

- **Programming Languages:** Dart, Python, Java, C#, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Flutter, Flame, FastAPI, ASP.NET
- **Mobile & Cloud:** Firebase Authentication, Cloud Firestore, OAuth 2.0 (Google & Facebook Sign-In), Netlify, Google Search Console
- **Databases:** MySQL, SQLite, Cloud Firestore (NoSQL), Apache Derby (JavaDB)
- **AI & Speech:** Automatic Speech Recognition (ASR), Text-to-Speech (TTS), LLM integration (Llama 3.2 via Ollama), Prompt Engineering
- **Tools & Platforms:** Git, GitHub, Android Studio, Visual Studio Code, Figma, Ollama
- **Practices:** Object-Oriented Programming (OOP), RESTful API Design, Software Testing (Unit, Widget, UAT), Rapid Application Development (RAD), Responsive & Accessible Web Design, Gamification, Sensory-Friendly & Child-Centred UI/UX Design
- **Language**: English, Malay

PROJECTS

TalkiePal: An AI-Assisted Pronunciation Training Application Using Automatic Speech Recognition and Gamification for Children with Speech and Language Disorders | Flutter, Firebase, Native ASR

- Developed a cross-platform mobile application using Flutter to assist children with speech and language disorders in improving their pronunciation.
- Engineered real-time pronunciation feedback and progress tracking features by integrating native Automatic Speech Recognition (ASR) for speech-to-text conversion in English pronunciation assessments.
- Implemented Cloud Firestore for real-time data synchronization and Firebase Authentication for secure user access.
- Designed a sensory-friendly UI/UX specifically tailored for children with autism, alongside gamification elements and a therapist-parent video consultation module to enhance user engagement.

CultureTap Mobile Application | Flutter, SQLite

- Developed a cross-platform mobile application using Flutter that connects travellers with local cultural experiences, featuring secure user authentication, dynamic activity browsing, and an end-to-end booking management system for users and admins.
- Designed a local SQLite database to manage user accounts, booking records and service listings, with SHA-256 password hashing and separate user and admin sign-in.

PROFESSIONAL EXPERIENCE

FREELANCE WEB DEVELOPER, Ben's Fry (Pasir Gudang, Johor) *Oct 2026*

Live: bensfry.netlify.app | *Code:* github.com/khairulmissa/bens-fry

- Designed, built and deployed a responsive, mobile-first website for a fried chicken restaurant using HTML, CSS and JavaScript, hosted on Netlify and optimised for search (meta tags, sitemap, Google Search Console) and accessibility (keyboard navigation, ARIA labels).
- Built a data-driven menu of 37 items across 6 categories with category filters, best-seller highlights and a full menu-board viewer; prices and shop details are edited in a single config file without touching the layout.
- Implemented a live "Open now / Closed" status based on Malaysia time, one-tap WhatsApp and call buttons, and Google Maps and Waze directions to turn visitors into walk-in customers.

MATH TEACHER AND ASSISTANT (Part Time), Kumon Centre *Jul 2025 – Sep 2025*

- Guided students in Mathematics by explaining key concepts and supporting individual progress based on the Kumon learning method.
- Marked assignments, identified common mistakes and gave corrective guidance, while maintaining student records and preparing learning materials.

PROJECT ADMIN, JAK MAX (M) Sdn Bhd *Jan 2022 – Dec 2024*

- Coordinated service requirements, operational updates and issue resolution with key stakeholders including Telekom Malaysia, TNB, MBJB and ALLO.
- Tracked inventory for Wi-Fi and cable services and prepared client-facing progress reports for major corporate clients.

CERTIFICATIONS & TRAINING

- **Project Management Fundamentals,** IBM SkillsBuild 2026
- **Navigating the Project Management**, IBM SkillsBuild 2026

ACHIEVEMENTS

- **Nitori International Scholarship Recipient**, awarded by the Nitori International Scholarship Foundation
- **Dean's Award Recipient** for **Semester 1 to Semester 3**, demonstrating consistent academic excellence and strong commitment to learning.

EXTRA-CURRICULAR ACTIVITIES

- **Director**, KL City Day Half Marathon & Running Clinic 2026
- **President**, Phantom Runners Club 2026
- **Secretary**, Sekretariat Rakan Muda 2026
- **Floor Manager**, UniKL MIIT Blast-Off Fest 2025
- **President & Project Manager**, The Youth Mental Health Event for Professional English Club 2025
- **Secretary**, UniKL MIIT Frisbee Club 2025
